

Summer School

EUSPACE - European Union in Space: Law and Technology

Imperia Campus of Genoa University, 25-29 July 2022

The EUSPACE Summer School is a **multi-disciplinary project** financed by the European Union, Erasmus Plus Jean Monnet Programme, through the SPACE4U Jean Monnet Chair, that aims at giving an **analysis of the current main legal and technical issues** related to the intervention of the European Union in space. This year the main topic will be “*Space Sustainability: a challenge and an opportunity for technical and legal experts*”.

The **venue** will be the town of Imperia, located on Italy’s north-western coast, easily reachable via Genoa or Nice airports and home to a University Campus where the event will take place from **25th July to 29th July 2022**.

The initiative aims to attract **researchers and young professionals in law, political science, economics and engineering**, as well as **doctoral and post doctoral** students dealing with the space sector. Precisely the participation is opened to those **who have attended at least a three years’ study university course** in the above-mentioned topics.

Students who will attend at least 80% of the lessons will be provided with an **attendance certificate** by the organisation. Moreover, within the programme a **Workshop** involving the active participation of students is forecast in order to stimulate their knowledge of the topic.

The **speakers** will be academics from the University of Genoa and other universities as well as operators in the field of space industries and institutions (please have a look to the past editions of the course in order to know more about the speakers)

The participation to the summer school **does not request the payment of a fee**, although the cost for the accommodation is totally upon the participants. Due to the recent years’ experience, we offer the possibility for foreign students to attend the course **online**, through the Microsoft Teams Platform, given that the “in presence attendance” is still the best option for reaching the objectives of the initiative.

Registration to the summer school is needed by proper registration on the website www.eu-space.eu, before **June 20th, at 12.00 (Rome time)** .
